*Departmental training , no Fire safety included.

Laboratory and Fire Safety Training is required for faculty, staff, students, undergraduates, graduates, post-doctorates, and visiting scholars before initial assignment to a laboratory. This requirement can be satisfied by attending a two-hour Laboratory and Fire Safety Training seminar. EH&S schedules at least one session per month, either at **102 Draper hall** or at the department location. Spaces are limited, please call EH&S 545 -2682 to register. ***No walk- in allowed.***

TO REGISTER FOR TRAINING, PLEASE CALL EH&S at: 545-2682, or email Bmitchel@ehs.umass.edu or jfclark@ehs.umass.edu with the FOLLOWING INFORMATION:

- ✓ First/last name, 8-digit ID# (campus ID#)
- ✓ Status (ugrad, grad, faculty, staff, etc.)
- ✓ P.I./Department for which you will be working
- ✓ Date you will and/or have started work on campus
- ✓ A telephone number or email address where you can be reached
- ✓

LABORATORY SAFETY TRAINING:

- The Massachusetts Right to Know Law, and how to read MSDSs
- Basic toxicology including routes of entry and occupational exposure limits (PELs, TLVs)
- Safety equipment and personal protective equipment
- Proper use of laboratory fume hoods
- Emergency awareness

HAZARDOUS WASTE MANAGEMENT:

- Federal and State requirements for point of generation
- Collection
- Management and disposal of hazardous waste

FIRE SAFETY TRAINING:

- Common fire hazards, causes, and your role in preventing fires
- What to do in case of a fire and what to do if trapped by a fire
- How to choose and use the proper fire extinguisher
- Fire protection systems

(Note: All sessions require outdoor training. Please dress appropriately for the weather.)
